[Independence Constructors Awarded New Jersey State Contract for Fuel Storage Tank Services. \(A75553 for T-0849\)](#)

Only five (5) firms were awarded the 2009 to 2011 New Jersey State Contract for Fuel Storage Tank Services and we are pleased to announce that Independence Constructors is one of them.

Independence Constructors is a licensed, fully insured, turnkey storage tank contractor. Our primary services include pump and tank installation, repairs, upgrades, compliance inspections, maintenance, and removal associated with both underground and aboveground storage tanks.

We have been in the storage tank business since 1988 and have completed projects ranging from \$250 to \$4,000,000 for small and large, private and **public entities**.

We would welcome the opportunity to meet with you to discuss how this new contract will make it easier for you to select a storage tank contractor to meet any of your existing or future needs.

The enclosed brochure and our website www.independenceconstructors.com will provide you with more information regarding our services and clients.

If you have any questions about your existing systems, our services or would like a **complimentary fueling system overview inspection**, please give us a call at (908) 625-7910.

Sincerely,

Chris Trebus
Principal
